

**Department of Experimental Statistics Technical Reports  
Louisiana State University**

**Research Report Series**

<b><u>Series No.</u></b>	<b><u>Title</u></b>	<b><u>Author</u></b>
RR-82-01	<i>A Consequence of Non-Orthogonal Data</i>	Jerry W. Lewis Luis A. Escobar James P. Geaghan
RR-82-02	<i>Spacing of Information in Polynomial Regression: A Simple Solution</i>	Luis A. Escobar James L. Cornette
RR-82-03	<i>Planning Accelerated Life Tests with Type II Censored Data</i>	Luis A. Escobar William Q. Meeker, Jr.
RR-83-04	<i>A Consequence of Non-Orthogonal Data (RR-82-02 Revised)</i>	Jerry W. Lewis Luis A. Escobar James P. Geaghan
RR-85-05	<i>Optimum Accelerated Life Tests With Type II Censored Data</i>	Luis A. Escobar William Q. Meeker, Jr.
RR-85-06	<i>Elements of the Fisher Information Matrix for the Smallest Extreme Value Distribution and Censored Data</i>	Luis A. Escobar William Q. Meeker, Jr.
RR-85-07	<i>Sampling Properties of the Least Squares Estimator Over Interval Constraints</i>	Luis A. Escobar Bradley A. Skarpness
RR-85-08	<i>High Education of Residents of Louisiana and Other Selected States Relative to the U.S Population, 1970 and 1980.</i>	George S. Tracy
RR-85-09	<i>Suppression and Enhancement in Bivariate Regression</i>	Jerry W. Lewis Luis A. Escobar
RR-85-10	<i>Efficiency and Inefficiency of Blom Type Estimators</i>	Luis A. Escobar
RR-85-11	<i>A Basic Demonstration of the <math>[-1,1]</math> Range for the Correlation Coefficient</i>	Luis A. Escobar Charles Monlezun
RR-85-12	<i>The Bias of the Least Squares Estimator Over Interval Constraints</i>	Luis A. Escobar Bradley A. Skarpness
RR-86-13	<i>Two-Stage BLUE in Regressing Regression Coefficients</i>	Luis A. Escobar
RR-86-14	<i>A Comment to "On Regressing Regression Coefficients"</i>	Luis A. Escobar

<b><u>Series No.</u></b>	<b><u>Title</u></b>	<b><u>Author</u></b>
RR-86-15	<i>Performance of Multiple Comparison Procedures When Sample Sizes are Randomly Distributed</i>	Arnold M. Saxton Monica Y. Tsui
RR-86-16	<i>Simplifying Some Derivations in Linear Models Using the Cauchy-Schwarz Inequality</i>	Luis A. Escobar Charles J. Monlezun Bradley O. Skarpness
RR-88-17	<i>D-Optimal Design for Cubic Polynomial Regression on the Q-Simplex</i>	Yong B. Lim
RR-88-18	<i>D-Optimal Designs for Log Contrast Models with Mixtures</i>	Yong B. Lim
RR-90-19	<i>Sample Sizes for Estimating the Weibull Hazard Function from Censored Samples</i>	William Q. Meeker, Jr. Luis A. Escobar David A. Hill
RR-90-20	<i>Assessing Influence in Regression Analysis with Censored Data</i>	Luis A. Escobar William Q. Meeker, Jr.
RR-90-21	<i>Fisher Information Matrix for the Extreme Value, Normal, and Logistic and Censored Data Distributions</i>	Luis A. Escobar William Q. Meeker, Jr.
RR-91-22	<i>Ridge and Penalized Likelihood Estimation for Generalized Linear Regression</i>	Brian D. Marx Paul H. C. Eilers
RR-92-23	<i>Some Procedures for Testing Linear Hypotheses in Multiple Regression</i>	Lynn Roy LaMotte
RR-92-24	<i>On Testing Equality of Two Poisson Intensities</i>	Lynn Roy LaMotte Lian Mao
RR-93-25	<i>Use of Antedependence Models in Forestry Trials</i>	Raúl E. Macchiavelli E. B. Moser S. R. Pezeshki
RR-93-26	<i>Relative Efficiencies of Some LR-Estimators with Type II Censored Data and Small Samples The Effects of Covariate Adjustment in Generalized Linear Models</i>	Lisette R. Bergeron Luis A. Escobar
RR-94-27	<i>The Effects of Covariate Adjustment in Generalized Linear Models</i>	Laurence D. Robinson
RR-94-28	<i>Direct Generalized Additive Modeling with Penalized Likelihood</i>	J. Robert Dorroh
RR-94-29	<i>Analysis of Repeated Measures in Biotechnology</i>	Raúl E. Macchiavelli

<b><u>Series No.</u></b>	<b><u>Title</u></b>	<b><u>Author</u></b>
RR-94-30	<i>Statistical Power and Assumptions for Environmental Impact Designs</i>	Glenn I. Garson James P. Geaghan David C. Blouin John W. Day, Jr.
RR-94-31	<i>Analysis of Repeated Measurements with Antedependence Models</i>	Raúl E. Macchiavelli E. Barry Moser
RR-99-32	<i>Generalized Linear Additive Smooth Structures</i>	Paul H. C. Eilers Brian D. Marx
RR-99-33	<i>On Ill-Conditioned Generalized Estimating Equations and Toward Unified Biased Estimation</i>	Brian D. Marx
RR-01-34	<i>A Permutation Alternative and Other Test Procedures for Spatially Correlated Data in One-Way Anova</i>	Robert G. Downer
RR-01-35	<i>On the Generation of a Multivariate Spatial Poisson Distribution</i>	Robert G. Downer E. Barry Moser
RR-02-36	<i>Prediction Performance of Correlated Error Procedures for Spatial Counts</i>	Robert G. Downer
RR-02-37	<i>Comparative Evaluation of Spatial Prediction Methods in a Field Experiment for Mapping Soil Potassium</i>	Asfaw Bekele
RR-02-38	<i>Generalized Additive Models with Signal Components From Medical Instruments</i>	Brian D. Marx Paul H. C. Eilers Dorothee P. Auer
RR-03-39	<i>Penalized Image Regression</i>	Brian D. Marx Paul H. C. Eilers
